

## WES BURNS

### In the Workplace

Wes Burns is Midwest BankCentre's EVP of Community and Economic Development. This division focuses on bringing access to affordable capital throughout the entirety of the St Louis Region. In this role, Wes loves "the ability to create meaningful and sustainable change in the way capital is deployed throughout St. Louis, focusing on the 22 zip codes containing Low/Moderate Income census tracts."

### At Home

The Burns family is an active family of 5 that loves to spend time in the great outdoors! He, his wife, daughter, and sons appreciate being in nature and enjoying all it has to offer via hiking, camping, and fishing.

### With CHMO

Wes felt drawn to serving on our Board as he believes "that every individual deserves access to safe housing as a human right, especially youth. Without access to stable housing, access to education, healthy foods, financial stability and a fulfilled life is extremely challenging." He finds himself "energized" every time he hears a success story about one of our young people.
